## *Saving Energy Means Saving Money*

An investment in Landmark Windows means more money in your pocket.

*Ordinary glass allows heat to pass through it. This means that in the winter, heat escapes from your home and in the summer, hot air gets in.*

*Our energy-saving window technology is the basis of our company, and allows us to easily back up our work with the best warranty in the business.*

*We stand behind our work, and can say with confidence that you will not find a better window to help you save energy.*

## *40% Fuel Savings Pledge*

**We pledge that you'll save 40% on your current fuel consumption bills if you install Landmark windows and patio doors.**
